

Wallbox Onboarding Guide

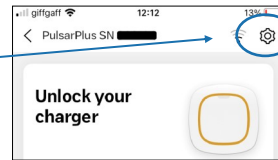

Before you Start!
Have your Square Up Charging URL / Server Address to hand (starting WSS://)
This is provided after adding your Charger into the Square Up Charging portal

1. Ensure the Wallbox has a stable Wifi connection
2. Login to your Wallbox App and locate your Charger

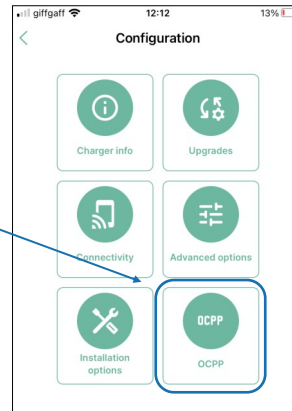

3. Check that the Wallbox App is **showing a successful connection** (Bluetooth or Wifi) to the Charger

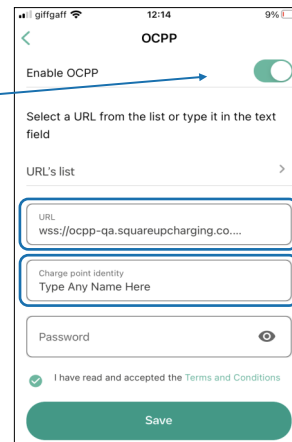

4. Select your Charger and Go to the **Settings Menu**:

5. **Select 'OCPP'**

6. - Enable the OCPP Toggle
- Enter your Square Up Charging Server URL (starting wss://) into the URL Field
- Type any name into the Charge Point Identity Field
- Leave Password blank
- Select 'Save'

The Charger will then reboot and start connecting to the Square Up Charging server.
You will be able to see the 'Connected' status in your Square Up Charging portal after around 10 minutes.
